The screenshot displays the Maltego CaseFile 4.3.0 interface. The main workspace shows a graph with a central entity 'www.certifiedhacker.com' (represented by a train icon) connected to three 'Person' entities (represented by person icons) all labeled 'johndoe@gmail.com'. The connections are represented by arrows. The interface includes a top menu bar with options like 'Investigate', 'View', 'Entities', 'Collections', 'Transforms', 'Machines', 'Collaboration', 'Import | Export', and 'Windows'. Below the menu is a toolbar with various icons. On the left is the 'Entity Palette' with a search bar and a list of entity types including 'Person', 'Identification Number', and 'Passport Number'. On the right are panels for 'Overview', 'Detail View', and 'Property View'. The 'Detail View' panel shows the details of the selected 'Person' entity, including its name 'maltego.Person' and email 'johndoe@gmail.com'. The bottom status bar indicates '1 of 4 entities'.
